Lost in a Bottomless Pit.

In Boggs county, on the road leading from Marshallville to Fruwich, Ga., and ten miles from the former town, resides a well-to-do farmer named Myrup.

His amiable and loving wife, early after breakfast, had taken her infant child, about nineteen months old, in her arms, and had gone off in search of a fine and favorite milch cow, that had for the first time failed to come home the previous evening.

On coming home from the field to his dinner, Mr. Myrup learned that his wife and sweet little prattler had not made their appearance. Almost frantic with fear and excitement for their safety, knowing that a large bear had been seen in the swamp near by only a few days before, he put out, immediately in search of the missing ones. All the hired men of the place, followed, and, each taking a different direction, the whole country was ransacked for several miles around. The neighbors also, as the sad news reached them, joined in the search. The sun was just sinking behind the western hills, when as the miserable husband was returning up a small branch that had its source at his spring, and as he was still anxiously, but almost hopelessly, looking in every direction, while passing along, he descried in a patch of luxuriant grass in a marsh a few paces off something like a piece of gingham. He stood horrified and motionless for a moment or two, and his heart almost stopped pulsation as the thought rushed through his frenzied brain that the object he saw might be his wife's bonnet, and that both she and his darling boy might be buried in the fathomless quagmire over the centre of which lay this relic. Approaching to within a safe distance of this miry pit, he discovered the grass turned downward and the surface of the slough broken and depressed, showing that some living body had been struggling greatly to get out. Very soon one of the neighbors and two of the freedmen came up, Mr. M. had already explored to the depth of his arm in the mire, but found no traces of the unfortunate ones. A pole, twelve or fifteen feet long, was now obtained and sent down its full length, but neither could anything be felt nor the bottom touched. Another rod, longer than the first was then fastened to it, and a like examination was made with a like result. Any further attempt, to recover the dead bodies was, therefore, deemed useless. It was accordingly decided to desist, and the party, which had by this time increased to thirty-five or forty persons, all set out for their respective homes, just at nightfall.

This quagmire had been known to all the occupants of the farm from its earliest settlement but never till then was any conception formed of its immense depth. Fully thirty feet of it had been sounded, yet its lowest part, if any it has, is still to be ascertained. The mean diameter of the pit proper, for some fifteen feet down, is about three and a half feet.

Extravagance of American Women.

A New York paper says:—New York is crowded with rich unmarried men, afraid of the expense of supporting these gilded butterflies. There is a bachelor at the Fifth Avenue Hotel whose income is $20,000 a year, and still he says he can't afford to get married. He's a proud fellow, and says, as a single man, he can have the best horses, best rooms, and best box at the opera. "If I should get married," he said, "I would have to stint myself or overdraw my income." "How is that?" asked a friend. "Well, now, come into the parlor and I'll show you. You see ladies are extravagant now-a-days. They dress so much more than in Europe. I mean, they don't wear rich diamonds, like the the women of Florence and Milan but they wear such rich dresses, laces, shawls, and furs. Now, I'm proud, and I would not want my wife outdressed, so I have to keep out of the marriage business." Do you see that lady there? he said, pointing to a fashionable caller. "Yes." "Well she has on a $400 panniered, watteaued, polonaised, brown gros-grain dress, and I wear a $60 coat. She wears a $1200 camel's hair shawl, and a $500 set of sable, while I wear a $70 overcoat. She wears a $70 bonnet, while I wear an $8 hat. She wears $200 worth of point applique and point aguille, while I wear a $6 shirt. Her shoes cost $15, and mine cost $12. Her ordinary morning jewellery, which is changed every year, not counting diamonds, costs $400; mine costs $50." "Well how does it foot up?" "Why, the clothes she has on costs $2225 and mine cost $206, and that is only one of her dozen outfits, while I only have—say three. The fact is, said he, growing earnest, "I couldn't begin to live in a brown stone front with that woman and keep up appearances to match,—carriages, church, dinners, opera, and seaside, for $20,000. I'd have to become a second-rate man, and live in an 18-foot house, or withdraw over to Second avenue, and that I'll be hanged if I do!" and he slung his fist down into a nice silk hat in the excess of his earnestness.

Secret Religious Service in an Anglican Church.

The *Liverpool Evening Albion* publishes the following:—

There has been an unpleasant rumour circulating the last few days respecting the proceedings at St. Peter's parish church, and especially in reference to those on a recent festival occasion. It is stated that, on the occasion of a recent festival, not authorized nor recognized by the Church of England, a private and secret service unknown in the rituals of the Church was performed with locked doors; that, at this service, one of the clergy was gorgeously robed, and that there were other attendant circumstances directly opposed to the pledges and promises of the rector, and certainly utterly repugnant to the wishes of the parishers. We regret to find that there can be no doubt that a private unannounced service was held under peculiar circumstances, with closed doors, on the feast of Corpus Christi.

The *Manchester Guardian* says:—

We are enabled to give what are the facts, substantiated by the "priest" himself—the Rev. George R. Burrows. This gentlemen informs us that the service referred to did take place as described, and that he alone is responsible for it. It was attended by lay friends of his, to the number of fifteen—members of the Confraternity of the Blessed Sacrament, and believers in the Real Presence. The hour at which it was held was nine in the evening, after the ordinary service, and it occupied about half an hour, conducted with locked doors. It was what is called the service of the Benediction and Procession of the Blessed Sacrament, the procession being accompanied with hymns, litany and incense. Mr. Burrows, it may be said, is well initiated in these services, he being in the habit of spending some time at Llanthony Abbey with Father Ignatius, where such services are of daily occurrence; and we understand that in the event of the present disclosure resulting in a termination of Mr. Burrows' labours in Liverpool, he will at once join the English Benedictine Order. We may state that Mr. Burrows, who commenced work at St. Peter's about two years ago, has no license from the bishop, but simply his permission to work in the diocese.

THE EIGHTY-ONE TON GUN.—The progress of the eighty-one ton gun, and great experimental gun to which military men are looking forward with so much interest, has now reached an important stage, the last of the forging operations and the most critical operation in the construction of the gun having been successfully performed on Friday, namely, the welding together of the jacket piece which carries the trunnions and encloses the breech end of the cylinder. The forging was considerably larger than any that has been previously attempted, and some anxiety had been felt as to the result, not only on account of the enormous size of the heat, which would hardly go under the great hammers, but also from the risk there was that in raising such a mass to a welding heat would run out of shape under the pressure of the weight above it. However, by a careful check upon the heat of the furnace, the forging, after more than sixty hours' exposure, was brought out in perfect order, and the hammer did the work required of it with complete satisfaction. The satisfactory completion of the gun may now be regarded as certain.

A GREAT VARIETY OF NOVELTIES received by last steamer, are now for sale by THOS. WILSON & Co., consisting of Grenadines Yosemites, French Muslins, Prints, Piques and a large assortment of other new Dress material. Shawls, white and colored Skirts, children's Pique and Tassore Costumes, Sun-shades, Ribbons, Feathers, Flowers, Ladies' Silk Scarfs, plain and fancy Dress Buttons, &c. These goods having been bought direct from the Manufacturers will be sold cheap.

Governmental Injustice.

EDITOR COLONIST.—About the 9th of January last, during the severe cold weather, I hired my sloop to the Provincial Police Officers to proceed to Sooke and arrest a murderer, at $6 per day. I placed the sloop in charge of Serjt. McCarthy of Esquimalt. The next day I was informed that she had gone ashore on this side of Williams Head and had been abandoned there. I went down with three men to save the sloop. I was forced to put a new bottom in her and make other repairs, at a cost of $325. Owing to the wreck of my sloop I was thrown out of business all last winter. I have made repeated application to the Government to pay me the cost of repair only, and they have refused to do so. I am now summoned to pay the costs of the repairs and am unable to do it. Mine I consider to be a hard case, for if the Government can escape the responsibility of the damages inflicted upon my sloop while she was in the charge of its own officers, no person will in future be safe in assisting to bring criminals to justice.

Yours, etc., JOHN COLLINS,
Owner of sloop "Duncan."

DR. J. COLLIS BROWNE'S
(Ex Army Med Staff)

CHLORODYNE

IS THE ORIGINAL AND ONLY GENUINE.

CAUTION—Vice-Chancellor Sir W. P. Wood stated that Dr. COLLIS BROWNE was undoubtedly the inventor of CHLORODYNE; that the story of the defendant, Freeman, being the inventor was deliberately untrue which he regretted had been sworn to. Eminent Hospital Physicians of London stated that Dr J. Collis Browne was the discoverer of Chlorodyne: that they prescribe it largely, and mean no other than Dr Browne's.—See TIMES, July 12, 1864.

The Public therefore are cautioned against using any other than

DR J. COLLIS BROWNE'S CHLORODYNE.

REMEDIAL USES AND ACTION.

This INVALUABLE REMEDY produces quiet, or freshing sleep, relieves pain, calms the nervous system restores the deranged functions and stimulates healthy action of the secretions of the body without creating any o ithose unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvelous good effects and wonderful cures while medical men extol its virtues most extensively using it in great quantities in the following diseases:—

Diseases in which it is found eminently usefu—Cholera, Dysentery, Diarrhœa, Colics, Coughs, Asthma Cramp, Rheumatism, Neuralgia, Cough, Hysteria, &c.

The Right Hon Earl Russell communicated to the College of Physicians and J T Davenport that he had received information to the effect that the only remedy of any service in Cholera was Chlorodyne.—See Lancet Dec 31, 1864.

From A Montgomery, Esq., late Inspector of Hospitals, Bombay: Chlorodyne is a most valuable remedy for Neuralgia, Asthma and Dysentery. To it I fairly owe my restoration to health after eighteen months severe suffering, and when other medicines had failed

Dr. Lowe, Medical Missionary in India reports (Dec 1865) that in nearly every case of Cholera in which Dr Collis Browne's Chlorodyne was administered the patient recovered.

Extract from Medical Times, Jan 10, 1866—Chlorodyne is prescribed by scores of orthodox remedical practitioners. Of course it would not thus be singularly popular did it not supply a want and fill a place.

Extract from the general Board of Health, London, as to its efficacy in Cholera.—So strongly are we convinced of the immense value of this remedy that we cannot too forcibly urge the necessity of adopting it in all cases,

Beware of spurious and dangerous compounds sold as CHLORODYNE from which frequen tfatal results have followed

See leading article, Pharmacentical Journal, Aug 1, p869, which states that Dr J. Collis Browne was the inventor of Chlorodyne: that it is always right to use his preparation when Chlorodyne is ordered. Sold in bottles at 1s 13d, 2s 9d, 4s 6d, and 11s each.

CAUTION—None genuine without the words "Dr. J. Collis Browne" on the Government stamp. Overwhelming medical testimony accompanies each bottle,

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC.

CURING Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach & Breath, Erysipelas, Headache, Piles Rheumatism, Eruptions and Skin Diseases, Biliousness, Liver Complaint Dropsy, Tetter, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a Dinner Pill, and Purifying the Blood,

Are the most congenial purgative yet effected. Their effects abundantly show how much they excel all other Pills. They are safe and pleasant to take, but powerful to cure. They purge out the foul humors of the blood; they stimulate the sluggish or disordered organ into action, and they impart health and tone to the whole being. They cure not only the every day complaints of everybody, but formidable and dangerous diseases. Most skilful physicians, most eminent clergymen, and our best citizens send certificates of cures performed and of great benefits they have derived from these Pills. They are the best physic for children, because mild and effectual. Being sugar-coated, they are easy to take; and being purely vegetable, they are entirely harmless.

A Change for the Better.

Constant dropping, it is said, will wear a stone; and if recent changes in the conduct of the business of the Lands and Works Department is not an exemplification of that adage we should like to be told what is. Listen while we sketch two or three of these changes—or, rather, Reforms. About two months ago tenders were called for the building of a bridge across the ravine at Nanaimo. One of the specifications was that only Burrard Inlet sawed lumber should be used. Against this stipulation we entered a vigorous protest, pointing out that in its effort to break down a local sawmill company that employed a large number of men, because one of its owners had opposed the Government in the House, the Government was really doing a serious injury to the merchants of Nanaimo. About the same time it transpired that the Government Howe Sound trail party working near Lillooet were being supplied with bacon imported from *Cairo, Illinois*, at a cost of 28 cents per lb., when a better article, raised in Lillooet District, could be had at the rate of 8 cents per lb. lower Shortly afterwards we drew attention to an insufferable insult that had been offered the people of Yale — and through them every resident of the Mainland—by the Chief Commissioner in a telegram replying to a dispatch complaining that the road was unsafe. In dealing with these serious matters care was taken that while the Chief Commissioner did not escape severe censure for his share of the responsibility, the Premier who allowed them to go on unrebuked should not be screened. Indeed, we are decidedly of opinion that when a Premier suffers a colleague to remain in office after his unfitness has been proved, he himself assumes the odium that attaches to the other's acts. With respect to the ravine bridge we have just heard that the Nanaimo sawmill having changed hands that the stipulation to which we objected has been withdrawn and that the contractors will be allowed to use Nanaimo sawed lumber. Perhaps some of those who tendered with the stipulation staring them in the face that only lumber from the other side of the gulf should be used in the construction of the bridge and failed to get the job, may cry out against this concession and declare that it is unfair to them; but the fact remains that in receding from the original specification the Government has made the most disgraceful admission that the first stipulation was (what we claimed it to be at the time) a direct blow aimed at a political opponent, and had nothing whatever to do with the quality of the lumber of either the Burrard Inlet or Nanaimo mills. How flattered Burrard Inlet will feel at this admission. With respect to the Cairo bacon, orders have been dispatched to Lillooet that provincial meats shall be supplied the road parties. This order, unfortunately, comes too late, as nearly all the bacon required by the men now at work had been already furnished and the Province has not alone the satisfaction of knowing that it is several hundred dollars poorer in consequence, but it can also enjoy the happy consciousness that its money has gone into the pocket of a producer in a foreign country three thousand miles distant, leaving our own farmers with large stocks on hand. From Yale we hear that the Lands & Works is endeavouring by assiduous attention and fulsome flattery to erase from the popular mind the remembrance of past neglect and impertinence. The people, however, are not likely to soon forget that through the criminal neglect of the Chief Commissioner and the heartless indifference of the Premier a large amount of valuable property has been lost and a much larger amount placed in serious jeopardy. If such irregularities as were developed by the original and changed specification of the Nanaimo Ravine bridge; such neglect as is seen in allowing a $1,000,000 road to fall into decay; such an outrage as was perpetrated by the Chief Commissioner in his telegram to the people of Yale; and such treatment as was meted out to the taxpayers of Lillooet in the substitution of Illinois bacon for their own production; if—we ask—such irregularities, neglect, outrage and treatment can be perpetrated with impunity on the eve of a general election, what may not be looked for if, after the elections are over, it be found that the present Ministry have been snugly seated for the next four years? We do not anticipate any such calamity. We have a strong and abiding faith in the good sense of this people, and have every confidence that the Ministerial candidates will be "smitten hip and thigh" in nearly every district. Yet it would be well for the electors to be on their guard against the blandishments of the men now in power, and not suffer themselves to be cajoled by concessions which, though valuable, have been wrung with difficulty from Walkem & Co., and will be withdrawn as soon as the contest shall have been decided.

FRENCH MEDICINES

PREPARED BY

GRIMAULT & CO.,

PHARMACEUTICAL CHEMISTS,

8, RUE VIVIENNE,

PARIS.

OF all the medicines offered to the public for many years past, none have met with such favorable reception, or been so generally approved by the Medical Profession, as those prepared by Grimault and Co.

The model laboratories of this firm, situated at Neuilly-sur-Seine, and managed by Dr. Leconte, Professor in the Faculty of Medicine, ex-Pharmacist of the Hospitals of Paris, and formerly Assistant of Dr. Claude Bernard, Professor of Physiology at the College of France, offer guarantees to be found in no other establishment.

NURSING---PREGNANCY---EXHAUSTION.

Busart's Lactophosphate of Lime Preparations.

The preparations having Lactophosphate of Lime at their base, known as Dusart's Wine and Syrup are the most valuable tonic restoratives known. They promote the formation and the nutrition of tissues, render nurses' milk more rich and plentiful, and aid the formation of the infant during pregnancy. They stimulate the appetite, agree with feeble persons, convalescents, old people, and especially with children to counteract the tendency to rickets.

GRIMAULT & CO'S

Syrup of Hypophosphite of Lime.

An excellent remedy for all affections of the chest; it relieves coughs, effectually prevents nocturnal perspiration, and restores the patient's strength. This syrup is the only one which, ever since 1857, has invariably been attended with satisfactory results—a fact due to the purity of the hypophosphite employed. Be sure to observe that it bears the signature of Grimault and Co., on bottles of an oval shape, the syrup being always of a rose colour.

GRIMAULT & CO'S

Matico Injection and Capsules.

Composed of the essence extracted from the plant so called, they have been constantly employed with the most brilliant success in a certain class of contagious disease.

They combine extraordinary efficacy with the advantage of never causing nausea, eructations, or pains in the stomach, as do the gelatinous capsules which contain Balsam of Copahu in a liquid state; or the strictures which result from the use of injections having a metalic basis.

H. M. S. Rocket.

The gunboat Rocket, Lieutenant-Commander Chas. R. Harris, arrived in Esquimalt harbor yesterday morning, having been 21 days on the passage from San Francisco. She encountered dead head winds all the way up; ran short of coal and put into Astoria for fuel. The Rocket will take the place of the gunboat Boxer on this station. She was commissioned 9th Sept., 1874; sailed from Plymouth 4th October, 1874; called in at Maderia, St. Vincent, Rio, Montevideo, Port San Julian; came through Straits of Magellan (calling at Sandy Point, Smythe's Channel) where the ship grounded on a rock off Sombrero Island, doing no damage. On to Valparaiso, Coquimbo, Callao, Payta; staid one day at Cocos Island (where the Spanish treasure is supposed to have been hidden); visited Acapulco, Manzanillo, San Blas, Mazatlan, San Diego, San Francisco and Astoria.

LIST OF OFFICERS.

LONDON AND WESTMINSTER BANK AND THE RECENT FAILURES.—A London correspondent says:—The commercial and financial pressure of the past few weeks finds its more remarkable exposition in the report which the Directors of the London and Westminster Bank have issued some eight or ten days before the customary time. The London and Westminster is the older and the larger of the Joint Stock London Banks, excepting, of course, the Bank of England. Its paid up capital is £2,000,000; and its reserve fund at the commencement of the closed half year was over one million sterling. The dividend has for many years been 20 or 21 *per cent.* annually; but the Directors state in this report that they can only recommend a dividend at the rate of 10 per cent; their profits for the half year, after making the usual provision for bad and doubtful debts, are placed at £252,000, of which the 10 per cent. dividend will require £100,000 for the half year, and adding the balance, £152,000, to the former Reserve or Rest it would have amounted to £1,157,000; but they have carried £500,000 from the Reserve, leaving it at £667,000. This half million sterling is to form a special fund to meet "the exceptional losses and 'frauds' to which they had been subjected during the half year; and they feel confident that this large sum will be amply sufficient." I quote the ugly word 'frauds' as it is employed by the Directors; but do not know its special reference. The report increases the anxiety to learn the condition of other banking companies, and the probability that private bankers may also have largely partaken of the general loss, and even "frauds." Shares in joint stock banks will decline in value until their reports be issued, and they will be rapidly passed out. The liabilities of Messrs. Collie & Co. are reported before the Court as £3,400,000, without an estimate of their assets.

MR. MACKENZIE.—We read in the *Times:* The Prime Minister of Canada, the Hon. Alexander Mackenzie, has been presented with the freedom of Dundee. The ceremony was witnessed by many of the leading citizens and a large representation of the public, the great hall of the Albert Institute buildings being crowded. Provost Cox in making the presentation alluded to the success which Mr. Mackenzie had achieved without any adventitious aids, to the great improvements he had effected in the country of his adoption, and to his efforts to cement the friendly relations existing between the Canadian Government and Great Britain. Mr. Mackenzie, who was loudly applauded, referred them to the great resources of the country, and contended that it was quite consistent for two great nations to exist on the American Continent governed by different political institutions. He was convinced that so long as Great Britain maintained her present attitude toward the Colonies so long would that friendship and confidence which existed be maintained. The burgess ticket was enclosed in a superb silver casket. In the evening there was a banquet in Mr. Mackenzie's honour.

FOR THE EAST COAST.—The steamer Maude sailed for Nanaimo and way ports at 7 o'clock yesterday morning. Amongst her passengers were Mr. Marcus Smith (C.P.R.S.), Dr. Powell, Dr. Carrall, Mr. Prevost and wife, Mr. Dawson and Mr. Richardson (Geological survey), Mrs. Pidwell, Miss Maud Higgins, Mr. Gibson, Mr. Spratt, Captain Hughes, Miss Huston, Mr. and Mrs. Bednall and thirty others. She had a large mail and freight.

ADIEU.—The ladies who came here with Rev. Mr. Hammond from Portland embarked on the steamer Favorite yesterday for Oregon. They were accompanied to the boat by the evangelist and many friends who sang "Hold the Fort for I am coming" and several other hymns, in which they were joined by the passengers on board the steamer which at last started amidst much waving of handkerchiefs and the sweet strains of ladies' voices.

ANOTHER ROAD ACCIDENT.—Mr. James McIntosh, the well-known road contractor, while riding a horse near Yale, a few days ago, was thrown by the falling of the animal into one of Beaven's holes and so severely bruised that he has since been confined to the house. "My information is different from yours."—R. B.

THE Alida will most probably take the place of the Isabel for a few days until the North Pacific is put on the route again.

AWARDED.—Mr. James McIntosh has been awarded the contract for constructing a trail through part of Nicola Valley for the sum of $12,000.

THE steamer Favorite started for the Sound at 10:30 yesterday morning with the mails and 40 or 50 passengers.

County Court.

[Before Hon. A. F. Pemberton,]

TUESDAY, Aug. 10.

Saunders *vs.* Plummer—Judgment for plaintiff for $90 60 and costs.

Stuart & Keast *vs.* C. King—Judgment in favor of plaintiffs for $192 65. The question of costs to be further considered.

Manetta *et al vs.* Petchler—The defendant in this action has occupied premises on Johnson street for 17 years, during which time the property has changed hands more than once. The present owner wishing to sell, the defendant received notice to quit as a monthly tenant. Petchler claims that he is a yearly tenant and has not received the notice required in such case according to law and refuses to go. Other points have been raised, but this, we believe, is the main issue. Considerable evidence was heard and judgment deferred for one week.

Location of the Island Survey.

The "T" party, C.P.R.S., will proceed this morning to establish their first camp in the vicinity of the Four Mile House, Craigflower road, and will commence the location survey at a point just beyond the Admiral's house and near the Indian Reserve, Esquimalt, working westward. The initial stake of the line will probably not be driven till to morrow. The party is composed as follows: R. C. Harris, engineer-in-charge; J. Simpson, transit; J. P. Howe, leveller; A. Wallace, leveller; F. S. Barnard, commissary; R. Stewart; Jas. Pottinger, W. S. Louttit, H. Pleace, Chas. Lowrie, Thos. L. McGovern, Wm. Willoughby, Henry Willoughby, Andrew Strachan, Samuel Greer, George Webb, Jas. Johnston, A. McDonald, and five Lillooet Indians.

THE GREAT REVIVAL.—Philharmonic was crowded again last night by an attentive congregation, and Rev. Mr. Hammond's sermon was pronounced to be one of the best ever delivered in this city. It was full of sound gospel truth and energy, replete with anecdotes and stories of personal adventure in the Holy Land, Europe and America. When the lecturer described the deathbed scene of his mother, strong men wept and sobs were heard all over the Hall. The inquiry meeting was very interesting and there was a manifestation of applause that could scarcely be restrained when Mr. Hammond announced that from sixty to one hundred conversions had taken place in this city since his arrival. Every one seemed glad to hear that the California had broken her machinery and that Mr. Hammond would remain in the city till the necessary repairs had been effected. There will be a prayer meeting at Wesley Church at 9 o'clock this morning and service as usual at Philharmonic Hall this evening.

ARRIVAL OF THE CALIFORNIA.—The steamship California, Capt. Hayes, from Portland, Ogn., arrived in Esquimalt harbor at 5 o'clock yesterday afternoon. She was three days on the passage owing to fogs and having sustained a slight disarrangement of her machinery, which necessitated her using only one engine. She has a company of U. S. troops and officers for Alaska, and Mrs. E. Field and five children, and 90 tons freight for Victoria. She will go to Port Townsend after undergoing repair, return to Victoria to discharge freight for this place, and sail for Sitka in about four days' time.

COUNTER ORDER.—The order of the military authorities of Alaska respecting trade there has been countermanded, so far as it relates to furnishing a $5,000 bond and excluding unnaturalized foreigners.

HEAVY HAUL.—The Seattle *Tribune* says that 2900 salmon were taken at one haul of a seine at Mukilteo, Washington Territory, on the 5th inst. The weight of the catch was 20,000 lbs.

THE steamer Enterprise, with about 30 passengers and 50 tons of freight, sailed for New Westminster at 8 o'clock yesterday morning.

THREE RIVERS, July 26.—The Government boom at St. Maurice river broke this morning. Great quantities of logs are passing belonging to several firms. It is reported that there are over ten thousand logs out of St. Maurice river drifting into the St. Lawrence river.

MONTREAL, July 26.—The Northern Colonization Railway Co. are rapidly pushing forward the work of laying rails, and the track is already completed for about five miles.

Business was quiet to-day and there is no change to note in the money market. Exchange of all kinds nominal, at 109¼ to 109⅜ for round amounts of sterling 50 day bills between banks, and ⅛ to ¼ premium for gold drafts on New York. Stock very dull at a fractional decline. Bank of Montreal closed at 188 to 184; Bank of Toronto at 187 to 188; Merchants at 102¼ to 102½; Royal Canadian Bank at 95 to 95½; Commerce at 128 to 134; Montreal Telegraph at 157 to 158.

TORONTO, July 25.—In the North Renfrew election case, Mr. Wm. Murray has been unseated. Judge Wilson said he was impelled to the belief that Thomas Murray, the brother and agent of the respondent, had been guilty of corrupt practices.

TORONTO, July 26.—Mr. Mackay, of Cape Breton, whose election was protested, has been confirmed in his seat in the Commons.

Five cargoes of iron for the Canadian Pacific Railway have been landed at Fort William during the Past week.

OTTAWA, July 24—Private letters from the Maritime Provinces speak satisfactorily of the fishery prospects.

Rev. Vicar-General Jouvent has left the city *en route* for France.

WATERTOWN, N. Y., Aug. 8.—The steamer York was burned to the waters edge this morning.

NEW YORK, Aug. 8.—It is stated the Agrarian jockey club, deposited $20,000 with Duncan, Sherman & Co., the Saturday before they failed.

MEMPHIS, Aug. 8.—A conflict is raging between two factions of the colored people of this county and city.

In a row in a house on Sixth street last night 3 colored men were shot and killed and several others wounded by pistol shots and razors in the hands of enemies.

On Westend road another row occurred in which two were killed and two wounded and others were reported as occurring. The trouble appears to have grown out of the workings of a secret society which has for its object the stirring up of strife between conservatives and radical negroes with the end in view of intimidating the former. Several arrests have been made and more will be. The trouble will soon be adjusted if the society is confined to this country; but it is feared it is more widespread.

NEW YORK, Aug. 8.—It is stated that Cardinal McCloskey's trip to Rome has more or less connection with choosing a successor to the Pope who shall fill the chair of the Pope after the death of Pio Nino, as well as to receive the hat and ring of the Cardinalate. The Pope's continued illness has an alarming effect on the Cardinals about the Vatican and a meeting has been called by the Pope that a successor may be chosen to take his place in case of sudden death.

NEW YORK, Aug. 9.—The liberal clubs will have a Hans Christian Anderson memorial meeting on Friday evening next. A special invitation has been extended to Danes in all countries asking them to join, and the Danish Consulate of this city is taking steps to assist in the observances.

This afternoon on application of Fairchild, State Attorney, Judge Westbrook granted an order of attachment against Dennison, Belden & Co., canal contractors, for $417,000, and an order of arrest, requiring bail from each in $10,000.

MONTGOMERY, Ala., Aug. 9.—Complete returns show that the convention was carried: Democrats, 19; Independent democrats, 6; Republicans, 12.

A special to the *Standard* from Glasgow reports that sixty rioters, many of whom are badly hurt, were brought before the magistrate yesterday morning and remanded to jail. Rioting broke out again in the suburbs on Monday and volunteers and regulars were ordered to be ready, but the disturbance was quelled by reading the Riot Act. It is remarked that mobs of Catholics armed with hatchets, steel knuckles and knives are organized and acting under leaders. It is reported that several of the men in custody are head centres.

NEW YORK, Aug. 9—A London special says the weather, the past week, has been fine and encouraging to hoppers. Harvesting will begin next week, but with all this the crops continue unfavorable, and favor holders of stocks of wheat. Prices of all grades are well sustained and quotations are steady on the basis of 51 shillings per quarter.

NASHVILLE, Aug. 5.—A terrible explosion occurred on the farm of Ben. Harlan, in Maury co., this morning. A number of hands were threshing with a steam thresher, when the boiler exploded, killing Mr. Harlan, Howard, the engineer, and a colored man, and wounding seven others, two of whom will probably die. Mr. Harlan's head was torn from his body and found some distance away. One colored man was blown seventy-five yards. The boiler was blown into atoms and part of it was found three miles from the place. The thresher and a large crop of wheat were destroyed by the fire. The explosion was caused by letting cold water into the boiler when too low.

CONCORD, N. H. Aug. 5.—Thomas Wilson last night shot and killed his father, when the latter was beating his wife with an iron stove poker. The son had warned his father to desist, and seeing there was a prospect of his mother being murdered, seized a gun standing near by and shot the old man through the head, killing him instantly. The son was arrested. His mother is reported in a very precarious condition from the injuries sustained.

PARIS, Aug. 8.—The court of appeals confirmed the judgment by which Corbet, the artist, was ordered to pay the cost of restoring the Vendome column.

Alarming Panic at a Moody and Sankey Meeting.

The London "Standard" of July 9th has the following: "A most alarming panic occurred at the meeting held yesterday in connection with the Moody and Sankey services at Camberwell Hall. The time for the departure of the revivalists drawing near, the audiences are daily on the increase. Last night the hall was densely crowded more than an hour before the commencement of the proceedings; still thousands arrived, only to find the doors closed against them. Mr. Moody commenced the service nearly an hour before the usual time. A hymn had been sung and a prayer offered up, and Mr. Moody was engaged in reading the Fifty-first Psalm, when suddenly the whole of the audience was startled by the noise of the doors being forced, and the uproar of thousands endeavoring to rush into the building. The females present shrieked, and a riot seemed to threaten. Mr. Moody immediately concluded his reading, and requested the people to keep calm and to join in singing a hymn. The meeting was now left in charge of Mr. Sankey, while Mr. Moody left the rostrum with the intention of endeavoring to quiet the people outside. He, on seeing the state of affairs, returned and told the ushers to depart from the usual rule, and allow as many as could be accommodated to stand in the aisles. The doors having been opened, thousands burst in, many rushing toward the galleries. The people here became alarmed, and Mr. Moody, who had returned, was asked not to allow any more to come there, or some evil consequence might ensue. In the meantime, a panic spread among those who had crowded into the enquiry rooms, which are situated under the platform and galleries. They were terrified lest these structures should give way, and the crowds of people above fall down upon them. Mr. Moody mounted into the rostrum, and expressed the hope that all would remain quiet. There had been a report of a threatened riot underneath. He was sorry to say that many people had got into the enquiry rooms, and had so far forgotten themselves as to use violence Under these circumstances, many were trying to get outside, but it was no use, as there were thousands in the rooms underneath and around the building. Consequently, if those below did not leave, violence must be met by violence. It would be injudicious for people to faint, too, for they could not be removed; so everyone would do well to remain where they were. Mr. Moody then left the rostrum. The panic now reached its height. Numbers of women, in spite of all remonstrance, endeavored to leave, and many had to be kept in their places by sheer force. Mr. Graham, one of the chief stewards, entered the rostrum and said if the people did not keep calm the committee could not now be responsible either for the safety of the building or people. Mr. Moody had gone outside, and would not return until all was quiet. Either the people in the rooms underneath or the galleries above would have to retire, or the service would at once be concluded. In about half an hour the overwhelming crowd had considerably lessened, and, after provision had been made for some extra hearers, the service proceeded. No casualty occurred, although the majority were severely crushed, and a number fainted. Mr. Moody, in the course of his subsequent observations, remarked that he was sorry to hear that two ladies who were present a few nights previously were now no more, one having dropped dead after leaving the hall."

English Mail.

In the House of Commons Mr. O'Gorman presented a petition from G. B. Skipworth, Esq., of Moortown House, Lincolnshire, praying for redress for the loss and injury inflicted on him by the penalties imposed for contempt of Court by the Judges of the Queen's Bench, in consequence of his espousing the cause of Sir Roger Charles Doughty Tichborne, Bart., now imprisoned in Dartmoor Prison. (Laughter.) The petition was read by the clerk at the table. Mr. Cross, replying to Mr. Whalley, said he had no evidence before him that Arthur Orton, now a convict in Dartmoor, was in fact in New Zealand—(laughter)—and he must decline, therefore, to grant to any person in New Zealand freedom from arrest on charges alleged against him in order that he might feel at liberty to prove his identity with Arthur Orton. Mr. Whalley gave notice that on Thursday he would ask the Home Secretary if he would allow to be inspected documents which had been sent to him purporting to show that Arthur Orton was really in New Zealand instead of in Dartmoor. (Laughter.)

The Rothesay correspondent of the South Wales "Daily News" states that Lady Flora Hastings has gone over to the church of Rome. The young lady is cousin to the Marquis of Bute, and eldest daughter of the recently deceased Countess of Loudoun. She is just twenty-one years of age, and has been spending the winter in the Isle of Bute, where her guardian the Marquis of Bute and Lady Bute have been residing.

Referring to the report that Lord Walter Campbell, third son of the Duke of Argyll, and brother-in-law of an English princess, has become partner in a stock-broking firm, the Academy says:—"Although an exactly parallel case might be hard to find, it would be a mistake to suppose that the English nobility has always held itself aloof from every branch of commerce. The truth rather is that since the reign of Henry VII. the trading class has been largely recruited by the cadets of families which in all countries but England would be styled 'noble'. When the Heralds visited London in 1568 they recorded a Bacon as alderman, a Fairfax as citizen and grocer, an Egerton as mercer, an Okeover as merchant-tailor, and many another name of high repute is to be found in the later visitations of the city."

Some excitement, says the Athenæum, has been caused during the last few days amongst the London master printers by a rumour that the Government is about to put up for tender the printing required by the Inland Revenue Department. It is to be hoped that the rumour may prove well founded, and that the Government printing monopolies, the printing of the Bible amongst the number, may come to an end.

Contradictory rumours are in circulation on this case. According to some reports the matter has been arranged with Miss Dickenson's brother, on the intervention of the Prince of Wales. Others lead us to expect that the Colonel will be put on his trial. The young lady whose case has given rise to this debate resides at Dunford House, formerly the seat of Mr. Cobden, a few miles below Midhurst. Any one who knows the long, protracted, narrow, solitary, entangled lane—much more than a mile in length—which Mr. Cobden delighted in as the entrance to his house, would have imagined that more peril was likely to accrue to a passenger there than on any railway in the kingdom. The officer whose name appears in this unhappy affair, says the Birmingham "Post," is a gentleman of great distinction, expending his personal fortune very freely for the promotion and perfection of military science. He was at Sedan with the King of Prussia, where no one would think of going as a matter of pleasure, unless his object was to study the art of war. That the lady should have been held by the officer to prevent her falling is a striking and honourable circumstance. [Since sentenced to twelve months' imprisonment.—ED. COL.]

The custom of employing women as clerks in large firms is, says "Women and Work," gradually gaining way. Messrs. Lang Brothers, chemists' sundries merchants, have several female clerks, and find it work well; and the large firm of Morgan Brothers, in Thames street, employ, we understand, sixty women out of a total of seventy clerks.

Notwithstanding the recent heavy failures money is plentiful, and confidence but little shaken in commercial circles. Indeed the bank rate of discount has just been reduced to three per cent.

Mr. John Foster is, the "Academy" understands, engaged on a Life of Swift, and a new edition of his works.

Mr. Gladstone's article has sent the "Contemporary Review" into a fifth edition.

It is currently reported that Baron Grant has purchased another London daily paper, this time a morning and Conservative journal.

Mr. H. A. Butler-Johnstone, M. P., states in the "Times" that 150,000 persons have perished in Asia Minor from famine.

It is said to be by desire of the Empress Eugenie that the Prince Imperial is doing duty as a subaltern, in preference to serving on the staff at the Summer Manœuvres.

A curious case has been disposed of by the Dundee Established Presbytery. A man and his wife, who had for years been members of the parish of St. Andrew's Without, for a time were cut off the roll of membership, and were thus practically ex-communicated by the minister and his elders. They applied to be reinstated in their positions, and asked that the minister and his elders should be punished according to the laws of the Church. The Presbytery decided that the minister and the session had been guilty of tyrannical and oppressive conduct, and ordered the applicants to be reinstated. The case excited a good deal of interest, and the verdict was loudly applauded.

Christ in Art

Of which the "Revue des Deux Mondes" the great critical authority of France, said "This work will rank side by side with the master pieces bequeathed to us by former ages." The official programme of the Vienna Exhibition, which was prepared under the supervision of the Austrian Government, said: "This beautiful work will cause M. Bida to rank with those great masters who have immortalized in art the records of Christianity. The "New York Times" very justly affirms that "There have been no such illustrations of the Bible till now." MR. TUCKFIELD will have pleasure in exhibiting and canvassing for this work in the city of Victoria. It is a book for all who love art and religion. It is the story of the words and acts of Jesus Christ as related in the language of the Four Evangelists, arrayed in one continuous narrative by Edward Eggleston, D. D., illustrated with one hundred full page plates on steel and wood, after the famous designs of Alexandre Bida, which are admitted to be by far the most striking, characteristic and artistic representations of the life of Jesus ever made. ***

No. 4 of 1875.

POINT ATKINSON REVOLVING LIGHT.

Notice is hereby given that a Lighthouse has been erected by the Government of Canada on Point Atkinson, at the north westerly entrance to English Bay and Burrard Inlet in the Straits of Georgia, British Columbia.

Latitude 49 deg. 19 min. 42 sec. N.

Longitude 123 deg. 15 min. 54 sec. W.

A Revolving White Light on the catoptric principle, elevated 119 feet above high water, will be exhibited on 1st May next. The light will show at intervals of one minute, making a complete revolution in two minutes.

The tower is a square building with dwelling house attached, painted white, elevated 40 feet from summit to centre of Light. The Light will be visible round an arc of the horizon from the entrance to Burrard Inlet to an E. by N. ¼ N. bearing, and should be seen in clear weather 14 or 15 miles distant.

The Light should not be brought to bear to the Eastward of North by vessels in the Straits, as this easing will only lead clear of Sturgeon Bank off Fraser River.

The Bearings are magnetic.

The Light is for coast purposes and to indicate the entrance to Burrard Inlet.

Political.

Gentlemen Electors of Lillooet District.

YOUR PRESENT REPRESENTATIVES to the Provincial Parliament having served their term, you will be called on to elect two others to represent the district for the next four years. Gentlemen, I think that you will agree with me that a change in your representation will undoubtedly benefit the district, I therefore offer myself as a candidate for the representation of your district in the next Parliament, and pledge myself, if elected, to serve you in truth and honesty and to the best of my ability, having no stone unturned in trying to secure the welfare and interests of the district and country in general. Being a comparative stranger to some of the electors I feel it my duty, as far as this notice will allow, to acquaint them with my reasons for soliciting their suffrages. Being a Nova Scotian by birth and bred, as it were, under Responsible Government, and knowing and feeling that Responsible Government, when honestly and justly administered, is the best Government yet given to a people. Having spent the last 23 years in traveling through California, Australia, New Zealand and British Columbia—the last 14 years spent here, and having seen and felt the evil effects of an arbitary Government, I therefore feel that experience has taught me which is the best Government. I am therefore prepared to uphold a Government who will give no monopolies in forest, field, mines or fisheries, who will equalize taxation, economize the treasury, immediately survey the public lands, give free grants to actual settlers, and a just franchise to all British subjects; seek indemnification for nonfulfilment of Terms of Union in regard to railroad through British Columbia, and legislate so as to remove all obstacles on our part to the commencement end completion of the railroad through British Columbia. Gentlemen, these are some of the subjects that direct legislation, and you must send men who are determined to see the evils which now crush the country remedied as soon as possible. Gentlemen, if you think I am worthy and capable of representing you in Parliament and do me the honor to accept my services, and elect me as your representative, I can assure you your confidence will not be misplaced.

I therefore beg to remain yours to command,

je13cw JOHN E. LORD, Lillooet.

Electors of Cowichan District.

GENTLEMEN:—I beg to offer myself as a candidate for the representation of this district in the next Parliament. With most of you I am personally acquainted, to others among you to whom I am not known I beg to state that I am an Independent candidate, belonging to no political party.

I trust to be able to see most of you before the election takes place, and should you do me the honor to return me as one of your representatives I pledge myself to serve you to the best of my ability.

I will support any measure calculated give to British Columbia a Modified Tariff, which I think ought to be granted us as part indemnification for the non-fulfilment of the Terms of Union.

I will strongly advocate retrenchment in the public expenditure. I consider the completion of the Trunk Road of great importance to the East Coast settlements and that no Government ought to be allowed to neglect it. I will urge the immediate settlement of the Indian land question and the opening of the 20-mile belt on the Island for immediate settlement.

I remain, Gentlemen, your obedient servant,

jy3dw W. Hy. LOMAS.

HALL'S VEGETABLE SICILIAN HAIR RENEWER.

This standard article is compounded with the greatest care.

Its effects are as wonderful and satisfactory as ever

It restores gray or faded hair to its youthful color.

It removes all eruptions, itching, and dandruff; and the scalp by its use becomes white and clean.

By its tonic properties it restores the capillary glands to their normal vigor, preventing baldness, and making the Hair grow thick and strong.

As a dressing nothing has been found so effectual, or desirable.

Dr. A. A. Hayes, State Assayer of Massachusetts, says of it: "I consider it the best preparation for its intended purposes."

Buckingham's Dye

FOR THE WHISKERS.

This elegant preparation may be relied on to change the color of the beard from gray or any other undesirable shade, to brown, or black, at discretion. It is easily applied, being in one preparation, and quickly and effectually produces a permanent color which will neither rub nor wash off.
